

# We're Trinity

We are dedicated to providing top-of-the-line packaging solutions for the food industry. We specialize in manufacturing high-quality cake boards and corrugated boxes, designed to meet the unique needs of our clients.

We're always on the lookout for innovative solutions that offer the best value proposition to our customers. We are committed to providing sustainable and eco-friendly options that not only protect the environment but also provide cost-effective solutions for our clients.

Our team is dedicated to creating environmentally conscious solutions for our valued customers and partners, helping them to reduce their impact on the planet while maintaining the highest standards of quality in their products. We are committed to becoming industry leaders in sustainable packaging and are constantly exploring new ways to improve our processes and products. We understand the importance of protecting our planet, and we strive to minimize our own environmental footprint every day.

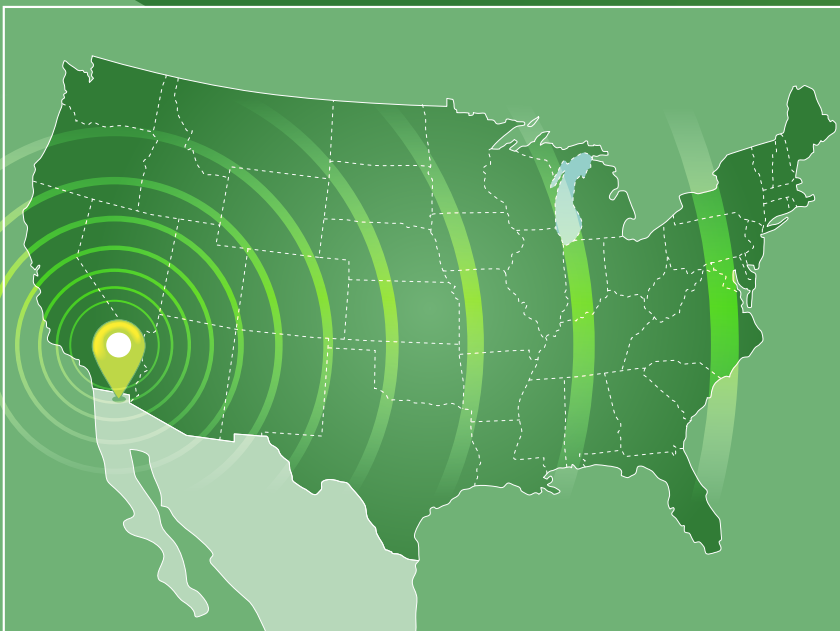

We pride ourselves on providing the best quality, sustainability, and cost-effective options to our clients.

# Value proposition

Eco-friendly packaging solutions for your baked goods, with quality, innovation, and value.

## Our location

Our location helps us provide you with better service in all aspects, and to always be ready for when you need us.

Carretera Mexicali-San Felipe KM 5+270 Interior 1-C, 1-D y 1-E,  
Parque Industrial El Dorado C.P. 21383, Mexicali, Baja California

# Private Label

Sustainability is becoming an increasingly important factor in the products we choose to buy and the brands we choose to support. Many consumers are looking for eco-friendly options, and businesses are starting to realize the importance of reducing their carbon footprint. One way to address this issue is by creating or expanding your own brand for products based on paper and cardboard. These materials are renewable, biodegradable, and recyclable, making them an excellent choice for environmentally conscious businesses.

Paper and cardboard-based products can be used to create a variety of items, such as packaging, labels, stationery, and office supplies. By using these materials as the base for your brand, you can create products that are not only sustainable but also visually appealing and unique. You can work with experts to design the packaging and branding of your product, using a variety of colors, textures, and finishes to create a unique and eye-catching design.

One of the advantages of using paper and cardboard is that they are versatile and easy to customize. You can create a range of products with different sizes, shapes, and functionalities to cater to different customer needs. Additionally, paper and cardboard-based products are often lightweight and easy to transport, making them an ideal choice for businesses that ship products internationally.

Expanding your own brand for products based on paper and cardboard is an excellent way to promote sustainability and appeal to eco-conscious consumers. By using renewable and recyclable materials, you can reduce your environmental impact and offer customers a unique and visually appealing product. So, if you're looking to start a new business or expand an existing one, consider using paper and cardboard-based products as the foundation of your brand. It's a great way to make a positive impact on the environment while also creating a successful brand.

# Top Window Cake Box

## Display Box

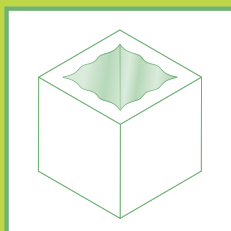

Our one-piece cake boxes come in convenient packs of 25, 50, or 100 pieces, making it easy for you to get the right amount for your needs. Simply consult the product page to determine the number of pieces in your desired size.

Our elegant Top Window Cake Box, the perfect solution for transporting and displaying your delicious creations. The box is made from high quality paperboard, providing both strength and stability to support the weight of larger cakes. The clean white exterior creates a professional and attractive appearance, while the Kraft interior adds a touch of natural charm.

The top lid features a clear window, allowing you to showcase your baked goods and giving your customers a glimpse of what's inside. This box is an excellent option for businesses or special events and the added value of a clear window on the lid makes it an ideal choice for bakery and pastry displays. The box is made of eco-friendly materials and the white exterior can be easily printed with your own logo.

# Cake Box

## Transport Box

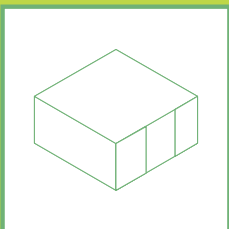

Our one-piece cake boxes come in convenient packs of 25, 50, or 100 pieces, making it easy for you to get the right amount for your needs. Simply consult the product page to determine the number of pieces in your desired size.

Our sturdy Non-Window Cake Box, the ideal solution for transporting any kind of cake or pastries. The box is made from high quality paperboard, providing both strength and stability to support the weight of larger cakes. The clean white exterior creates a professional and attractive appearance, while the Kraft interior adds a touch of natural charm.

This box is a more practical option for those who prioritize sturdiness over elegance, but it still presents a professional appearance, making it an excellent option for businesses or special events. The box is made of eco-friendly materials and the white exterior can be easily printed with your own logo.

# Paper Sticks

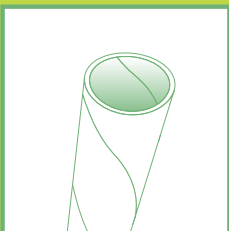

## Treat Holders

Our range of paper sticks offers a sustainable and eco-friendly solution for a variety of confectionery needs. Available in three different sizes, these paper sticks provide a versatile alternative to conventional plastic options.

Crafted from robust and durable paper materials, they are particularly well-suited for serving delectable treats such as donuts, cake pops, and more. Their sturdiness ensures reliable transportability, making them an excellent choice for events and gatherings. Elevate your confectionery presentation while minimizing environmental impact with our eco-conscious paper sticks.
